OFFICE OF THE PRESIDENT

August 29, 1980

Admiral Stansfield Turner
The Director of Central Intelligence
Washington, DC 20505

Dear Stan,

I was delighted to receive your good letter of August 21 and to learn of your willingness to visit the Principia Upper School on November 25.

Based on your tentative schedule, we are holding the hour from 2:30 to 3:30 p.m. on that day for an Upper School assembly. We would anticipate a total audience of about six hundred, including four hundred and fifty high school students. From our standpoint the format similar to that you used at Elsay would be fine, thirty to thirty-five minutes of remarks by you followed by a question and answer period with the students.

No doubt we'll want to be in touch with each other a little closer to the actual date. I'm sure we can flex our plans to some extent if needed. It will be great to see you.

I wish we could drop in at your house the evening that George and Rusty are there to see how their adventure is going. I'm afraid I feel a little bit about biking like I think you feel about jogging. There are other more interesting forms of amusement.

Helen joins in all good wishes to you and Pat.

Cordially,

David K. Andrews
President
